OEM / ODM AVAILABLE

ABOUT

Your gateway to China's medical consumables factories

We are based in Changyuan, Henan — the source of roughly 60% of China's medical consumables production capacity. From here we supply anesthesia, urology, surgical, respiratory and infusion products to distributors and healthcare providers worldwide, working with 30+ partner factories.

30+	60%	10+	100%
PARTNER FACTORIES	OF NATIONAL CAPACITY	YEARS IN THE INDUSTRY	PRE-SHIPMENT INSPECTED

Every product in this catalogue is CE marked under EU MDR 2017/745 and available for OEM / ODM. If it does not meet that bar, it is not listed.

01 **On-site quality control**

A first order is verified on site before production starts. Every shipment is checked before loading, and container loading is supervised by our own team.

02 **Certified supply**

CE MDR certificates held by our partner factories, with ISO 13485 quality systems. DoC, technical files and test reports on request.

03 **OEM & consolidation**

Private label, custom packaging and multi-factory consolidation into one shipment. Where you need to register the product, we coordinate the factory's technical file; the filing stays in your name.

CONTENTS

Contents

01 **Anesthesia & Airway Management** P.06

15 products · CE marked · OEM / ODM

02 **Urology & Catheter Care** P.07

5 products · CE marked · OEM / ODM

03 **Surgical & Operating Room Consumables** P.07

HOW TO ORDER

Select the code, request the SKU list, receive a quotation.

Each product code covers multiple sizes and pack configurations. Send us the codes you need plus quantity, destination port and trade term — we will return the full SKU list and a quotation within 24 hours.

SELECTED PRODUCTS

Twelve products, up close

QG-AN-004
Laryngeal Mask Airway (LMA)

QG-AN-012
Breathing Circuit

QG-AN-001
Reinforced Endotracheal Tube

QG-UR-001
Precision Urine Meter

QG-UR-003
Disposable Urine Bag

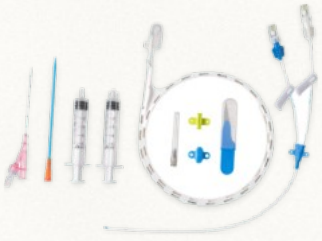

QG-UR-002
Foley Catheter Kit

QG-UR-006
Disposable Underpads

QG-SU-002
Disposable Surgical Kit

QG-SU-005
Central Venous Catheter Kit

QG-SU-006
Disposable Pressure Transducer (IBP)

QG-RP-003
Nasal Oxygen Tube

QG-RT-002
Elastomeric Infusion Pump

Twelve of 35 products shown. The full range follows in the category pages; sizes, pack configurations and certificates are listed in the SKU list for each product code.

COMPLIANCE

Every product here is CE marked. FDA sourcing on request.

CE under EU MDR 2017/745 is the baseline: no certificate, no listing. When a buyer needs FDA-registered supply for the US market, we source it from FDA-registered facilities — that is a sourcing capability, not a claim about every item in this catalogue.

CE MARKING — EU MDR 2017/745

Certificates are issued by the notified body named on each certificate — our partners do not all work with the same one. Class I devices carry a Declaration of Conformity; sterile and measuring Class I devices also require notified body certification under Annex XI. Class IIa and IIb products are covered by Annex IX.

FDA SOURCING — US market · on request

Where a product must be FDA-registered we source from partner facilities holding establishment registration and device listing, with 510(k) documentation where applicable. Ask before quoting the US market.

ISO 13485 — Quality management

Every partner factory we list operates an ISO 13485 quality management system.

DOCUMENTATION · RELEASED UNDER NDA

- Declaration of Conformity
- CE certificate and scope
- ISO 13485 certificate
- Biocompatibility reports (ISO 10993)
- Free Sale Certificate
- FDA documents (on request)

Certificates are held by our manufacturing partners and released to qualified buyers after NDA. We supply the factory's documents; registration, import and authorised representative duties remain yours.

01 Anesthesia & Airway Management

15 products · All CE marked under EU MDR 2017/745 · OEM / ODM available

PRODUCT CODE	PRODUCT NAME
QG-AN-001	Reinforced Endotracheal Tube
QG-AN-002	Double Lumen Endobronchial Tube
QG-AN-003	Tracheostomy Tube
QG-AN-004	Laryngeal Mask Airway (LMA)
QG-AN-005	Endotracheal Tube
QG-AN-006	Guedel Airway
QG-AN-007	Anesthesia Mask
QG-AN-008	Anesthesia Kit
QG-AN-009	Anesthesia Needle
QG-AN-010	Epidural Catheter
QG-AN-011	LOR Syringe
QG-AN-012	Breathing Circuit
QG-AN-013	Heat and Moisture Exchanger (HME)
QG-AN-014	Manual Resuscitator
QG-AN-015	Closed Suction Catheter

Sizes, pack configurations and certificates are listed in the SKU list for each product code, available on request.

02 Urology & Catheter Care

5 products · All CE marked under EU MDR 2017/745 · OEM / ODM available

PRODUCT CODE	PRODUCT NAME
QG-UR-001	Precision Urine Meter
QG-UR-002	Foley Catheter Kit
QG-UR-003	Disposable Urine Bag
QG-UR-004	Colostomy Bag
QG-UR-006	Disposable Underpads

03 Surgical & Operating Room Consumables

6 products · All CE marked under EU MDR 2017/745 · OEM / ODM available

PRODUCT CODE	PRODUCT NAME
QG-SU-001	Disposable Surgical Gown
QG-SU-002	Disposable Surgical Kit
QG-SU-003	Suction Handle
QG-SU-004	Connecting Tube
QG-SU-005	Central Venous Catheter Kit
QG-SU-006	Disposable Pressure Transducer (IBP)

URINE BAGS
100–5000 ml, anti-reflux valve

URINE METERS
2200–3100 ml, measuring chamber

CATHETER KITS
Foley sets, types A / B / C

GOWNS
S–XXXL, EN 13795, sterile

CVC KITS
1–3 lumen, 4–7 Fr
